

### Maths Oasis Modelling Set

- Magazines Is 43 - 48
- 10 Minigeofix Squares
- 8 Minigeofix Triangles

The Minigeofix, is an excellent tool for studying the properties of shapes in 2-D or 3-D, and to model geometrical shapes. Students can explore their own creative modelling ideas, as well as learn more about nets, tessellations and symmetry together with the activities in the magazines.

### Maths Oasis Sculptor Set

- Magazines Is 37 - 42
- 12 Omnifix Cubes

Because the Omnifix cubes are so well received, we gave them for a second consecutive year, where further ideas on the usage of them are discussed in the magazines. There are countless ways to play with these manipulatives, explore them on your own!

### Maths Oasis Builder Set

- Magazines Is 31 - 36
- 12 Omnifix Cubes

This set introduces the Omnifix cubes, which students love. These cubes can be used as blocks for learning spatial topics, but unlike normal cubes, these Omnifix cubes can be opened up, and are versatile enough to form different creative structures. The magazines provide some ideas which the students can draw upon to build their own structures.

### Maths Oasis Artist Set

- Magazines Is 25 - 30
- Fancy Envelope Book

Origami, a fusion of Maths and Art, is a well-loved activity of many students. In this set, the use of paper folding to form gift containers or envelopes for greeting cards will be explored. With this set, gifts will never be boring again!
